Date: January 18, 2021

Subject: Contact Tracing Checkpoints Closure

Contact Tracing Checkpoints program will end on Monday January 18, 2021 at 7:00 pm.

We want to thank all the Contact Tracing Staff for all their hard work and dedication through these hard times. The staff braved all types of weather conditions, difficult situations, and even put themselves at risk at contracting COVID to keep our community safe.

Over the next little while we will be rolling out the new Security Peacekeeper program. The new program will see security personnel out in the community patrolling and keeping our community safe. Stay tuned for details on the new program and implementation date.

Thanks, and be safe! Our community depends on you!
